

TRUSTEE PROFESSIONAL LEARNING

Fulfillment of Board of Education responsibilities requires trustees to be informed and develop their knowledge and skills. It is important for individual trustees to recognize the need for, and take advantage of, professional learning opportunities available.

Trustees attending a conference, workshop or other professional learning activity shall report to the Board within one month of attending, so that any relevant information and materials can be made available to all trustees.

Guidelines

1. An annual budget will be established for professional learning for trustees to attend:
 - The B.C. School Trustees Associations Annual General Meeting
 - The B.C. School Trustees Associations Trustee Academies
 - The B.C. School Trustees Associations Northern Interior Branch Meetings
 - Professional learning sessions as organized by the school district
2. Additional professional learning activities may be approved at the discretion of the Board.
